

# Delungra Public School Newsletter

Term 1 Week 9  
24th March 2023

## Welcome to Week 9

### NAPLAN Online

Last Wednesday the Writing component of NAPLAN was conducted.

This week will see the completion of the 2023 NAPLAN with Reading, Language Conventions and Numeracy.

### Parents & Citizens Association

The P&C are fundraising to put outside industrial fans in the undercover stage area. These fans will be a great advantage to our children during functions held in the stage area in hot weather.

They are asking for any support with cooking (muffins, biscuits, cakes and slices) for the Delungra Election Day stall.

Any donations of cooking will be gratefully accepted and may be left at the school on Friday 24<sup>th</sup> March before 3.15pm. Please contact Stacey on [silver.silver81@yahoo.com](mailto:silver.silver81@yahoo.com) or on our Facebook Page if you would like to assist on Saturday 25<sup>th</sup> between 9am to 1pm.

### Easter Egg Raffle

Just a reminder that the Easter Egg raffle will be drawn Wednesday 5<sup>th</sup> April.

Tickets and egg donations can be left at the office or given to your child's teacher.

### Infant Class

This week the Infant class worked on "Learning Intentions and Success Criteria". Learning Intentions are descriptions of what learners should know, understand and be able to do by the end of a learning unit. Learning Intentions are the basis for tracking student progress.

Success Criteria are the measures used to determine whether, and how well, learners have met the learning intentions.

## DATES TO REMEMBER

NAPLAN Online

28<sup>th</sup> April at Tingha  
Zone Cross Country 12 May at  
Gilgai

# Our Award Winners

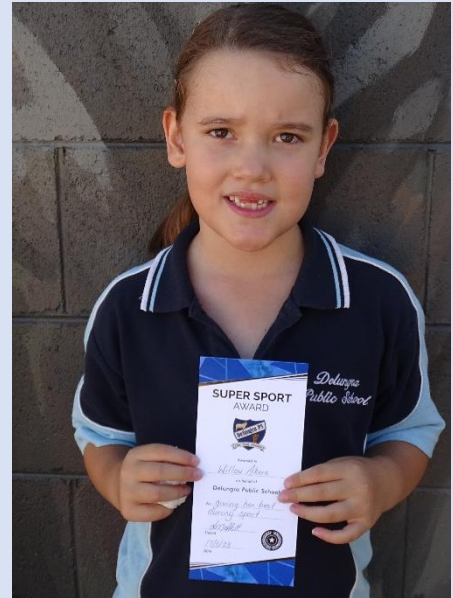

## Effective Learner Award

Lucas: His positive attitude towards learning.

## Super Sport Award

Willow: Giving her best during sport.

# BE YOUR BEST

I have high expectations for myself  
and I strive to be successful.

Infant Classes with their  
Learning Intentions based on  
growing and shrinking.

Be your Best means having high expectations and striving for success. Student achievement often reflects the expectations they have for themselves. Students who are being their best and practicing high expectations are more likely to do things outside their comfort zone and achieve their learning goals.

## Primary class using the Bee Bots

Bee Bots are a programmable floor robot and are an excellent way to introduce younger students to some of the basic concepts of coding. Students can learn directional language, commands, sequencing and problem solving. They also generally enjoy the hands-on nature of the Bee-Bot. Students draw a letter card and then program Bee Bot to move to a picture with the beginning sound that matches the letter. Not only are they reviewing the concept of beginning sounds, but then they must problem solve and figure out how to get Bee Bot to the correct picture.

## Infants posters from their "Our Favourite Place" session
